Through a simple and easy technique called ThetaHealing®, created by Vianna Stibal, you and your loved ones can experience instant healing. In just one technique, knowledge, wisdom, the strength of quantum physics and metaphysics come together. ThetaHealing® is a beautiful technique that can heal physical and emotional issues from the source allowing to heal deep soul wounds with great love and spiritual wisdom.

What is ThetaHealing®?

Theta State is a state of very deep relaxation; it is used in hypnosis and during REM Sleep. For this reason, people meditate consecutively for hours, in order to achieve this state, in order to have access to the absolute perfect calm.

Theta brain waves can be considered the subconscious; they govern the part of our mind that lies between the conscious and the unconscious and retains memories and feelings as well as directing your beliefs and your behavior.

ThetaHealing® teaches how to put to use our natural intuition, relying upon unconditional love. It is capable of solving physical, emotional and spiritual issues; achieving deep changes in our mind and body.

Today we use the name ThetaHealing® for the brain wave Theta, originating from the Egyptian and Greek letter Theta that means, among other things, "soul."

Modern science proves everyday how the power of our thoughts and emotions affect our body and health directly. The mind has a direct relationship with the body, whether it is to create optimal health or disease. It is our own responsibility to live in harmony with our mind, body and spirit despite the circumstances. This technique is a tool that gives us the power to remove and replace feelings, programs, beliefs and thoughts that influence us negatively, replacing them or modifying them to positive thoughts, feelings, programs or beliefs.

In this course you will work on:

The power of your thoughts and their connection to diseases.

Being able to handle your emotions and their connection to diseases.

How to enter the Theta state to heal yourself and others.

Activating your DNA

How to detect your unconscious limiting beliefs and changing them on personal, genetic, historical and soul levels.

Knowing your CHAKRAS

How to do individual and group HEALINGS.

INTUITIVE SCANS of the human body.

ACTIVATE your YOUTH and VITALITY chromosomes.

Handling the technique in order to REMOVE, CHANGE OR REPLACE BELIEFS.

Finding your deepest fears and resolving them.

Identifying and changing FEELINGS within our body, mind and soul.

Understanding how beliefs on all four levels of manifestation affect your health and daily life.

Understanding how the technique helps you to elevate your physical health, wellbeing and better your attitude towards life.

PERSONAL SESSIONS

Patients can be treated with personal sessions using the ThetaHealing® technique. These sessions are held by certified ThetaHealers® with at least one year of experience. The session lasts approximately 45 minutes in which the patient in spiritual co-creation does profound work on an emotional and physical level. In these sessions negative beliefs are healed from the source and the patient can see improvements and even heal permanently what was treated. The number of sessions that each patient needs to heal completely may depend on the openness to work on the issue and the intention and will to heal. There are patients who heal the issue completely in one session and others may need more sessions because of their belief levels.

With this technique you can heal: physical, mental, emotional and spiritual issues.

Through ThetaHealing® healings can occur even if the patient isn't physical present, all we need is permission to do the healing (if the patient can have a connection with the ThetaHealer® through Internet or with a phone call it's a good option in order to have an open communication to treat issues that may come up at that time). Whether the patient is physically present or from a distance the healing is effective both ways, it just depend on the needs or preference of the patient.

You can schedule a personal session calling our contact numbers or by sending us an email with your phone number and we will contact you as soon as possible.

We have Healers that can work with you in Spanish, English or French.

DANIELA VALDATTI

My life has been marked by hard events probably just like yours and that have been a before and after in my life, TODAY I can tell you that ThetaHealing® is one of the most practical and simple tools with instant and profound effects that have helped me to awaken a great potential to heal that we have all been given. It helped me heal my feeling from the source, my reactions, my judgments and above all it helped me to rescue, revive, understand, protect, respect and always accompany that beautiful and forgotten inner child inside me. I have learned to be filled with a profound inner PEACE, to use the universal laws in my favor having the certainty that the universe provides us with everything necessary to grow in all aspects. And with all the healing and inner growth proves the idea that "what's inside shows on the outside". I have the certainty that TODAY I can help you heal because when YOU heal I heal and that is my mission in this experience called life.

KRYSTEL ESCUDERO.

For me Theta has been an entire journey! I felt how I connected with all that is and I received strength from Mother Earth, I went up and say how people from all over the world connected as well. It was as if we were are all roots of a tree that united in a same path of light. From that moment on this technique became a healthy addiction for me, I love feeling how from Theta I can move my energy and be able to witness it and many other things that I have asked for and have manifested in my life ☑. The truth is I love Theta. MARIBEL CUEVAS
